Degree Options

The Internet Bible College (I.B.C.) is part of the ministry of Vision Colleges (Vision), which includes Vision Christian College (V.C.C.) and Vision International College (V.I.C.), a collaboration with Texas University of Theology (T.X.U.T.), and Vision International University Callif. USA. We are pleased to offer degree programs for students who wish to pursue further studies.

As a distance education provider, I.B.C. specialises in Bible College and Ministry Training, providing flexible and affordable study options to students enabling them to receive legitimate Biblical and ministry training. The courses are available through the Internet, utilising soft copy materials and online training, or through traditional mail with hard copy books.

Students who have completed their Diploma of Biblical Theology with V.C.C. or I.B.C., or the Advanced Diploma of Christian Ministry and Theology with V.I.C., or hold a similar award from an equivalent institution, can continue their studies to the Bachelor's Completion. After completing the Bachelor's degree, students can pursue Graduate or Master's and Doctoral Programs offered by Vision Universities through the Internet Bible College.

- Bachelor of Ministry with emphasis on Theology or Counselling
- Greaduate Certificate and Diploma
- MA in Theological Studies
- Doctor of Ministry
- Doctor of Philosophy

Under the Vision education framework, there are no strict time limits or restrictive schedules for completing the courses. Students can study at their own pace, in their own time, and from their preferred location. There are no mandatory lectures or intensive sessions that students need to attend, allowing students to confidently continue their studies and work towards earning their degree while engaged in their ministry or employment.

The distance education methods employed by Vision Colleges provide students with self-paced learning opportunities. These degrees are legitimate and affordable options for individuals seeking a quality education in ministry and theology.

Upon completing the Bachelor's degree, students can enrol in the Graduate Certificate and Diploma or the Master's program. Graduates of the Master's program are further qualified to enter the Doctoral program offered through the Texas University of Theology (T.X.U.T.) via I.B.C.

It's important to note that the degrees issued by Vision International University are categorised as "Religious Exempt" or State Approved in Louisiana in the United States.

Texas University of Theology is authorised to confer degrees up to and including a Ph.D. through the "Religious Exemption" Act in the U.S.A.

This means that the state accrediting body in the U.S.A. is satisfied that the workload is as rigorous as the equivalent award in a secular university. However, the studies are "Religious Exempt". They are specifically designed for church and ministry training and do NOT carry credits with secular universities as they are exempt from secular requirements.

Texas

The Texas Workforce Commission is the licensing authority for proprietary institutions, including for-profit/proprietary vocational-technical schools. The coordinating board approves Associate of Applied Science and Associate of Applied Arts degree programs offered at public and proprietary institutions.

Time Frame:

Vision Colleges recognises the unique challenges and difficulties of studying at your own pace through distance education. To address these challenges, Vision Colleges is committed to providing support and assistance to students through various channels such as email, website resources, and telephone service. They aim to be accessible and responsive to students' needs.

Vision Colleges suggests completing one subject at a time in terms of study recommendations. While there is flexibility in the time frame, it is generally expected that a subject or paper can be completed within three months, excluding the thesis/dissertation component. However, if **students require** more time, they are encouraged to stay in touch with Vision Colleges and communicate their needs**. A late marking fee will apply if a subject takes over three months to complete.**

Vision Colleges aims for students to enjoy their studies at their own pace, ultimately benefiting their ministry. It's important to note that the longer a student takes to complete the awards, the more susceptible they may be to program changes that can occur from time to time.

Vision Colleges aims to provide a supportive and flexible learning environment for students pursuing their studies through distance education.
